Mastering Unity Scripting Alan Thorn

Learn advanced C# tips and techniques to make professional-grade games with Unity

About This Book

- Packed with hands-on tasks and real-world scenarios that will help you apply C# concepts
- Learn how to work with event-driven programming, regular expressions, customized rendering, AI, and lots more
- Easy-to-follow structure and language, which will help you understand advanced ideas

Who This Book Is For

Mastering Unity Scripting is an advanced book intended for students, educators, and professionals familiar with the Unity basics as well as the basics of scripting. Whether you've been using Unity for a short time or are an experienced user, this book has something important and valuable to offer to help you improve your game development workflow.

What You Will Learn

- Understand core C# concepts, such as class inheritance, interfaces, singletons, and static objects
- Implement effective Artificial Intelligence for NPCs
- Work with event-driven programming to optimize your code
- Develop solid debugging and diagnostic techniques
- Get to know the Mono Framework and Linq in practical contexts
- Customize the rendering functionality for postprocess effects
- Code line of sight, view testing, and other useful algorithms
- Improve the quality of your code with the help of concepts such as attributes

In Detail

This book is an easy-to-follow guide that introduces you to advanced tips and techniques to code Unity games in C#. Using practical and hands-on examples across ten comprehensive chapters, you'll learn how C# can be applied creatively to build professional-grade games that sell.

You will be able to create impressive Artificial Intelligence for enemy characters, customize camera rendering for postprocess effects, and improve scene management by understanding component-based architecture. In addition, you will have an in-depth look at the .NET classes used to increase program reliability, see how to process datasets such as CSV files, and understand how to run advanced queries on data. By the end of this book, you'll become a powerful Unity developer, equipped with plenty of tools and techniques to quickly and effectively develop merchantable games.

From reader reviews:

Sylvia Dozier:

Now a day people who Living in the era just where everything reachable by talk with the internet and the resources inside can be true or not involve people to be aware of each info they get. How individuals to be smart in acquiring any information nowadays? Of course the correct answer is reading a book. Looking at a book can help men and women out of this uncertainty Information specifically this Mastering Unity Scripting book since this book offers you rich data and knowledge. Of course the info in this book hundred percent guarantees there is no doubt in it you know.

Donald Scott:

This Mastering Unity Scripting are generally reliable for you who want to be described as a successful person, why. The reason why of this Mastering Unity Scripting can be one of several great books you must have is usually giving you more than just simple reading food but feed anyone with information that perhaps will shock your before knowledge. This book is definitely handy, you can bring it everywhere you go and whenever your conditions both in e-book and printed versions. Beside that this Mastering Unity Scripting giving you an enormous of experience for instance rich vocabulary, giving you trial of critical thinking that could it useful in your day pastime. So , let's have it appreciate reading.

Virginia Higgins:

You can spend your free time to read this book this e-book. This Mastering Unity Scripting is simple to bring you can read it in the area, in the beach, train and also soon. If you did not have much space to bring the actual printed book, you can buy the particular e-book. It is make you simpler to read it. You can save the book in your smart phone. So there are a lot of benefits that you will get when you buy this book.

Desiree Grajeda:

As a university student exactly feel bored to reading. If their teacher asked them to go to the library or to make summary for some reserve, they are complained. Just very little students that has reading's heart and soul or real their interest. They just do what the instructor want, like asked to go to the library. They go to generally there but nothing reading critically. Any students feel that examining is not important, boring and can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this Mastering Unity Scripting can make you sense more interested to read.
