The Final Jihad is a prophetic blueprint, a warning of horrifying upcoming acts of terrorism targeted against the United States. It's a wake-up call no one should ignore.

The Final Jihad brings readers, for the first time, actual intelligence gathered by espionage operatives worldwide. It has been fashioned into a blockbuster novel by Martin Keating, who employs "predictive analysis" of classified information-the same technique used by government security agencies to anticipate terrorist assaults. The plans, strategies, and assassination techniques of the terror masters in this book are real. Their chemical and biological tools of destruction are real. And their ever-increasing threat to our survival is real
