A personal message from the Author: Ladies and gentlemen, I'm not a Sunday preacher. I'm just an average joe. I'm also a Christian, but only for one reason. I want to live forever. Every author will tell you their book isn't like anyone else's and well, I'm going to tell you the same... but I will include this... you're in for a very interesting story. (Some info may be unsettling; reader discretion is advised.) Some people might think this book is about being an abortion survivor. Not even close. It's not about seeing Jesus or His angels either. Nope, God didn't speak thoughts into my head like a would-be inspired journal either. It's not the word of God and it's not an addition to the Gospels. It's not a devotional and it's not going to judge you. It's just a story. The reason I wrote this book was to show you that, yes, EVERYTHING is possible and that the greatest hope actually does exist... NO MATTER WHAT. You can read every self-help book there is, do the work-out, eat right, fold your legs and meditate... but by this example... you'll never want to pay for another membership or an instructor again to know that this kind of joy is free. Real and authentic joy is like a rolling snowball. Even against the worst turmoil, it can only become immense. You can seek advice from Gurus, Doctors, Medians, psychologists and everyone on between. You can pay them all your money, read a million books to get the very best... but let me tell you, friends, real joy is doesn't cost a penny. I have so much joy myself, one would have to kill me in order to remove it and they still wouldn't succeed. Too many people these days are experiencing undefeatable amounts of stress, big or small, whether at school, work and sometimes even at home. Our society pushes us daily to believe that we're never going to be as worthy as that person down the street. "Buy our products! C'mon! Keep up!!" There's always going to be that crowd that gives you that haunting feeling like you're not much more than a minion in a factory if you don't stay on top of the pressures. We're all desperate to get noticed and to be known as somebody important. The confidence is failing us at every turn, faster than we can cry, "help!" The hierarchy of our system's social status standard is clearly fixated on making us believe if you're not Superman or an A-list movie star, you'll never be great. If you're not wearing designer clothes, buying a home or going to school, then you're a nobody! If you're not reaching for that socially expected standard of the Jones Family... then suddenly, everyone around you takes a few steps back. "Good grief! That person isn't going to amount to anything! So modest!" In these days, there are religious wars, rumors of wars and earthquakes in various places. There are roaring waves, signs in the skies and unparalleled storms with debates and discussions at every corner. With sinkholes, mass animal deaths and broken records every year, we struggle to understand the reasons why we are even here. Clearly, everyone wants to know that there is something better in this life or the next... and yes, I'm with you. I'm just the same. That is the reason I want to share a special, very personal and intimate story with you. Understand, you don't have to die to go to heaven, "The kingdom of God does not come with observation and nor will they say, 'See here!' or 'See there!' The kingdom of God is within you." This my friends... this story is the very proof, there is hope for the now, and hope for the great beyond. You are alive for an enormous and impressive reason, designer clothes or not. My story is proof. Simple. If I'm wrong, then I'm crazy and if I'm crazy... then I'll just continue being crazy and with that said, you can enjoy this crazy story.
