Research Handbook on International Law and Migration (Research Handbooks in International Law Series) (Elgar Original Reference) Vincent Chetail, Celine Bauloz

Migration is a complex and multifaceted issue, and the current legal framework suffers from considerable ambiguity and lack of cohesive focus. This *Handbook* offers a comprehensive take on the intersection of law and migration studies and provides strategies for better understanding the potential of international legal norms in regulating migration. Authoritative analyses by the most renowned and knowledgeable experts in the field focus on important migration issues and challenge the current normative framework with new ways of thinking about the topic.

The book examines the many facets of migration from an international law perspective. Topics discussed include the relationship between migration and state sovereignty, the human rights of migrants, human trafficking, migrant workers, refugees and internal displacement. The expert contributors hail from a number of diverse international law backgrounds (including refugee law, human rights law, humanitarian law, labor law, WTO law and others), allowing them to synthesize many different perspectives and present a comprehensive, cohesive and timely study of a complicated and fractured topic.

The *Research Handbook on International Law and Migration* provides a critical examination of migration and international law, identifying the issues still to be tackled and suggesting further developments to be made. It will appeal to advanced and postgraduate students, academics and policymakers.
