This full-color field guide is the result of a collaborative project between the governments of the United States, Malaysia, Indonesia and Australia, and is funded by the National Science Foundation.

The first comprehensive reference on the sharks and rays of Borneo, it contains everything you need to know about recognizing and identifying the sharks, rays and chimaeras caught and marketed in Indonesia. Its user-friendly layout contains information on identifying features, size, distribution, local common names, habitat, biology and conservation status of 118 species.

It is an essential reference for all shark and ray enthusiasts – including local fishers and consumers, fisheries and conservation officers and scientists.
