## Textbook of Clinical Neuropsychology (Studies on Neuropsychology, Neurology and Cognition)

With close to fifty chapters by some of the most prominent clinical neuropsychologists, the *Textbook of Clinical Neuropsychology* sets a new standard in the field in its scope, breadth, and scholarship. Unlike most other books in neuropsychology, the *Textbook* is organized primarily around syndromes, disorders, and related clinical phenomena. Written for the clinician at all levels of training, from the beginner to the journeyman, the *Textbook* presents contemporary clinical neuropsychology in a comprehensive volume.

Chapters are rich with reviews of the literature and clinical case material spanning a range from pediatric to adult and geriatric disorders. Chapter authors are among the most respected in their field, leaders of American Neuropsychology, known for their scholarship and professional leadership. Rarely have so many distinguished members of one discipline been in one volume.

This is essential reading for students of neuropsychology, and all others preparing for careers in the field.
