Stroke Recovery and Rehabilitation is the first comprehensive, multidisciplinary textbook devoted exclusively to stroke rehabilitation and recovery. This new comprehensive guide is the gold standard for managing and rehabilitating stroke patients. Beginning with detailed information on risk factors, epidemiology, prevention, and neurophysiology, the book details the acute and long-term treatment of all stroke-related impairments and complications. Additional sections discuss psychological issues, outcomes, community reintegration, and new research.

Written by dozens of acknowledged leaders in the field, and containing hundreds of tables, graphs, and photographic images, *Stroke Recovery and Rehabilitation* features:

- * The first full-length discussion of the most commonly-encountered component of neurorehabilitation
- * Multi-specialty coverage of issues in rehabilitation, neurology, PT, OT, speech therapy, and nursing
- * Focus on therapeutic management of stroke related impairments and complications
- * An international perspective from dozens of foremost authorities on stroke
- * Cutting edge, practical information on new developments and research trends

Stroke Recovery and Rehabilitation is a valuable reference for clinicians and academics in rehabilitation and neurology, and professionals in all disciplines who serve the needs of stroke survivors.
