In this extraordinary book, Dr. Harold G. Koenig presents groundbreaking scientific evidence that provides answers to these puzzling medical mysteries. You will read about the pioneering study that found nonreligious patients with heart disease to be three times more likely to die following surgery than their religious counterparts. You'll learn why saying prayers regularly can be as effective as taking medicine, and why prayer and medicine together are such a potent combination.

Here you will meet the unforgettable patients who taught the doctors so much as they triumph over life-threatening disease, heartbreaking marital problems, dangerous addiction, and more. With simple, practical methods for harnessing the power of faith, this potentially lifesaving book provides an astonishing and immensely effective strategy for healing.
