Are you looking for work that stirs your soul and pays the bills? Do you want to create a thriving livelihood from your natural talents, passions and dreams?

When you let go of what tires you then what inspires you will magically take its place. Quitting Your Job and Following Your Dreams is about saying “YES” to your dreams, instead of working towards other people's dreams.

We don't necessarily choose our dreams as much as they choose us; our dreams always point us in the direction of expressing our deepest gifts in our natural environment.

When you're in the wrong job, you're like a fish out of water gasping for air; suffocating every day that you're disconnected from your soul's work.

Deep inside, you know there's a bigger life for you than what you're living now.

Two decades ago, the author was in a job she hated at a large law firm working as a paralegal and a legal secretary, living paycheck to paycheck as a single mom raising 3 small children on her own, and was feeling deeply unfulfilled, unhappy and un-inspired. In 2000, as fate would have it, she was given the pink slip at the law firm which took her on an incredible journey to discovering and now living her dreams!

After a chance meeting with Billy Ray Cyrus who encouraged her to follow her dreams and never ever give up on those dreams...Michelle is living those dreams! Today, she gets paid to "play", running her six figure online business, 6-Figure Woman, and has the time and money freedom she always dreamed of.

Is there something inside of you whispering (maybe screaming) for you to come out of hiding and to start creating a new and inspired life. In order for you to live an inspired life and follow your dreams, you're going to have to stop playing it safe and starting trusting in yourself, your creativity, your strengths, and your truth.

You don't have to see the whole staircase to take the first step. In fact, wanting to have it all “figured out” is what stops the majority of people from living their dreams, getting paid to do what they love and from ever experiencing true happiness, joy and freedom – especially in the area of work.

Quit Your Job and Follow Your Dreams is a book of self-discovery – discovering who you are, what inspires you, what your natural talents are, what your dreams are, and what gifts you can share with others and build a livelihood around . It's also about identifying the obstacles that are blocking and preventing you from living an inspired life.

If you're ready to make a change, then Quit Your Job and Follow Your Dreams will help you create a plan to leave your soul-crushing job and create life and business that you LOVE!
