Applied Statistics for Public and Nonprofit Administration Kenneth J. Meier, Jeffrey L. Brudney, John Bohte

As the first book ever published for public administration statistics courses, APPLIED STATISTICS FOR PUBLIC AND NONPROFIT ADMINISTRATION makes a complicated subject easy to understand for students and professionals who have little background in statistics or research methods. Steeped in experience and practice, this landmark text remains the first and best in research methods and statistics for students and practitioners in public--and nonprofit--administration. All statistical techniques used by public administration professionals are covered, and all examples in the text relate to public administration and the nonprofit sector. The text doesn't use jargon; instead, it uses a step-by-step approach that helps you master the concepts.
