The U.S. Character Deficit and How to Restore it: One Individual at a Time with the Power of Wisdom Robert Wood

America is at a critical time in our nation's history when the American Character established by the Founding Fathers and whom countless Americans have fought and died to defend, is under attack from those who have a different set of principles and values. There is a loud minority of leadership in America today whose primary character traits are knowledge, power, control, social justice, interdependence, fairness and collective equality.

This is a far contrast from the character of our Founders, and the framework of character they devised in our system of government, of the people, by the people, and for the people. And it is the breakdown of this framework of character that is threatening the existence of our country, as we have known it.

This loud minority of leaders who oppose America Values, have been able to hijack the character of large groups of Americans whose individual character is not anchored in Truth and Wisdom of the God-centered, Judeo-Christian values the Founders drafted and the nation adopted in the Declaration of Independence and Constitution of the United States. America today is divided on values and principles (the American True North) and as a result the American Character is weakened, as is our force for good in the world.

The good news is that we have the history and record as the most prosperous nation on earth, and the power and strength of individual character, to nullify the change of course attempted by leaders with a secular True North. We do this by reinforcing our personal True North in American Values promoting individual liberty and prosperity that will strengthen the American Character, and we can, once again, become the greatest force for good in the world. It happens one individual at a time through the power of Wisdom.

In this book, we examine the hierarchy of Wisdom that brings abundant value to our lives. We examine the science of formal axiology developed by Nobel Prize nominee Dr. Robert S. Hartman, that is the science of how we think and make decisions. Through formal axiology we can identify our natural thinking patterns and measure how well we naturally value things and people including our Self.

You may or may not be aware of these patterns and talents of your own thinking, but a simple axiology assessment will give you your natural thinking pattern and top thinking talents. We make this assessment available to you, as a Bonus for purchasing the book (a \$250 value). Having this knowledge about your Self, helps you become more Self-aware, which is another key component to your personal Character Pyramid, that you will be examining and building throughout the book.

Strength of individual character, means having a solid Character Pyramid. This comes through Knowledge, based in Truth, of your Self, the World, and your True North guiding values and principles. This is the first step in restoring the character of our country.

Take a look at the back of a dollar bill and you will see the Great Seal of America. It is our American Character Pyramid. Let us be proud of and understand the meaning and purpose of our American Character Pyramid, and let us create our own Character Pyramid as a seal of great personal strength of character in our

own lives.

This book will give us the tools we need as individuals, and as a nation, to reset the American Values System, that our Founding Fathers established, as One Nation, under God, Indivisible, with Liberty and Justice, for all.
