Encyclopedia of Garden Ferns

Sue Olsen

Encyclopedia of Garden Ferns Sue Olsen

Gardeners who seek an up-to-date, authoritative guide to the wealth of garden-worthy ferns available today will find none better than Sue Olsen. Drawing from four decades of experience as a fern specialist, Olsen leads the reader through every genus with horticultural merit, focusing primarily on the temperate species but also including tropical ones. The remarkably comprehensive plant directory presents succinct descriptions for nearly 1000 ferns from *Acrostichum* to *Woodwardia*, with habitat information, cultural recommendations, and help on plant identification. Chapters on the history, cultivation, propagation, and structure of ferns; a series of appendices highlighting plants mostly likely to thrive in various locations throughout the world and in special conditions; and lists (with contact information) of fern societies, places to see ferns, and specialty nurseries provide readers with everything they need to know to deepen their knowledge and appreciation of ferns. This expansive, well-organized reference is enriched with anecdotal insight and lavishly illustrated with 700 photographs.

From reader reviews:

Michael Johnson:

The book Encyclopedia of Garden Ferns can give more knowledge and information about everything you want. So just why must we leave the great thing like a book Encyclopedia of Garden Ferns? Several of you have a different opinion about guide. But one aim this book can give many info for us. It is absolutely suitable. Right now, try to closer along with your book. Knowledge or details that you take for that, you may give for each other; you are able to share all of these. Book Encyclopedia of Garden Ferns has simple shape but the truth is know: it has great and massive function for you. You can search the enormous world by open up and read a reserve. So it is very wonderful.

Robert Hatch:

The particular book Encyclopedia of Garden Ferns will bring one to the new experience of reading a new book. The author style to clarify the idea is very unique. When you try to find new book you just read, this book very suited to you. The book Encyclopedia of Garden Ferns is much recommended to you to study. You can also get the e-book in the official web site, so you can quickly to read the book.

Evelyn Nay:

Is it you who having spare time subsequently spend it whole day through watching television programs or just resting on the bed? Do you need something new? This Encyclopedia of Garden Ferns can be the response, oh how comes? The new book you know. You are and so out of date, spending your extra time by reading in this new era is common not a geek activity. So what these textbooks have than the others?

Beth Johnson:

As a scholar exactly feel bored to help reading. If their teacher asked them to go to the library in order to make summary for some e-book, they are complained. Just little students that has reading's spirit or real their passion. They just do what the educator want, like asked to go to the library. They go to there but nothing reading very seriously. Any students feel that looking at is not important, boring in addition to can't see colorful photos on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore , this Encyclopedia of Garden Ferns can make you really feel more interested to read.
