This work is intended to serve as a user-friendly and up-to-date source of information on the morphology, syntax, semantics and pragmatics of Biblical Hebrew verbs, nouns and other word classes (prepositions, conjunctions, adverbs, modal words, negatives, focus particles, discourse markers, interrogatives and interjections). It also contains one of the most elaborate treatments of Biblical Hebrew word order yet published in a grammar. This reference grammar will be of service to students who have completed an introductory or intermediate course in Biblical Hebrew, and also to more advanced scholars seeking to take advantage of traditional and recent descriptions of the language that go beyond the basic morphology of Biblical Hebrew.
